

UPDATE 78
01 August 2024

New AFMA Gas Addendum

AFMA's Gas Committee has approved a new AFMA Gas Addendum to replace the previous Cash Settled Gas Trading Addendum.

The new AFMA Gas Addendum:

- Contains provisions for a new cash-settled Wallumbilla Transaction that parties can use as an EFP to exit ASX's new deliverable Wallumbilla Natural Gas Futures Contract prior to making physical delivery
- Minor amendments to simplify and modernise the document

Section 3.10 of the OTC Guide has been substantially revised to include commentary on the new Addendum and template confirmations to be used with it.

The Cash Settled Gas Trading Addendum has been archived in section 6.2.
